BULLETIN

Rule change for seat belts-

Manufacturer specifications shall take priority regarding all safety equipment.

An SFI approved five or six point safety harness with a 3" minimum wide belt equipped with a quick release buckle is mandatory in all cars. 2" wide belts that are part of the harness and attach the head and neck restraint to the five or six point safety harness are allowed. The driver must use the seat belt restraint system at all times on the race track, in accordance with the instructions and/or recommendations of the system supplier and/or manufacturer. The seat belt restraint system must be installed in accordance with the directions provided by the system supplier and/or manufacturer. The date of manufacture must remain visible on the belts at all times. Seat belt restraint systems must not be used beyond two (2) years after their date of manufacture or in accordance with manufacturers specifications.
